

Royford Wanyoike Wamaitha

Software Engineer | Quickbase Solutions Engineer | Developer Advocate

roywanyoike328@gmail.com • +254 706 103 000 • Nairobi, Kenya • www.linkedin.com/in/roywanyoike

SUMMARY

Software Engineer and Technical Support professional with 3+ years of experience building, debugging, and supporting full-stack applications and enterprise systems. Proven first-line technical support background, strong debugging and root cause analysis skills, and recent healthcare domain experience with HIPAA-compliant clinical solutions. Quick learner passionate about delivering reliable e-Health systems that improve healthcare outcomes.

SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Node.js, Angular, Svelte, React.js, Next.js

Platforms & Tools: Quickbase, Temporal.io, Supabase, Microsoft Power Automate, Active Directory

Specializations: Low-Code Development, REST APIs, Workflow Automation, Workday HCM/Integrations

Other: Network & Security, Hardware Maintenance, Technical Writing, Public Speaking

EXPERIENCE

Software Solutions Engineer | Imminent Transcendent Solutions

Sep 2025 – Present

Karen, Nairobi, Kenya

- Design, build, and maintain scalable Quickbase applications supporting operational efficiency across multiple business units.
- Automate workflows and integrate systems to reduce manual processes and improve data accuracy.
- Develop custom dashboards, user interfaces, and reporting tools to support real-time decision-making.
- Implement data governance standards including permission structures, validation rules, and secure access controls.
- Evaluate and integrate APIs and third-party tools to extend platform capabilities.
- Conduct user training and onboarding to ensure high adoption and effective usage of solutions.

Quickbase Solutions Engineer | Ethos Therapy Solutions

Aug 2025 – Present

United States (Remote)

- Led end-to-end development of Quickbase applications including schema design, custom dashboarding, and advanced formula field implementation.
- Engineered seamless integrations via Quickbase Pipelines and APIs to sync therapy data with external billing and CRM platforms.
- Optimized application performance by auditing legacy structures and refactoring complex many-to-many relationships for faster reporting.
- Developed automated workflows and notification systems to ensure real-time communication between clinical staff and administrative teams.
- Ensured HIPAA compliance and data security across all solutions in collaboration with clinical stakeholders.

Founding Engineer | Skystock Developer Limited

Jan 2025 – Jul 2025

Remote

- Led backend architecture and development using Node.js, Temporal.io, and Supabase, enabling scalable event-driven business processes.
- Built and maintained secure APIs handling 10,000+ daily requests with integrations to third-party systems.
- Implemented workflow orchestration with Temporal.io, improving system reliability to 99.9% uptime.
- Streamlined business onboarding flows, cutting setup time from 2 days to under 4 hours and boosting customer acquisition efficiency.
- Drove the launch of an MVP supporting 50+ active businesses within the first 3 months in collaboration with cross-functional teams.

Junior Software Engineer | Opteamio Ltd

Jan 2022 – Dec 2024

Nairobi, Kenya

- Built and maintained a commercial platform using Svelte, React.js, and Node.js serving 500+ users.
- Improved the user experience for the Gigsasa user platform.
- Worked as Workday Analyst (HCM): wrote integration reports, assisted in diagnosing tenant system issues, and learned Workday Integration.
- Collaborated with cross-functional teams to facilitate KPI development and align tech solutions with business objectives.
- Supported client onboarding and smooth transitions to new technologies.

Full-Stack Developer | G-Roll

Sep 2022 – Apr 2023

Nairobi, Kenya (Subcontracted via UK, on behalf of Gigsasa Ltd)

- Built G-Roll, a Kenya-based HR and payroll management system, as a subcontracted project via a UK client on behalf of Gigsasa Ltd.
- Coordinated business, management, and data teams to implement KPIs aligned with HR and payroll operations.

Cyber Security Consultant | Opteamio Ltd

Sep 2022 – Feb 2023

United Kingdom (Remote)

- Led a team of three in implementing an ISMS project for the company.
- Guided other companies through ISO certification processes.
- Conducted software security assessments for company products.

IT Support Engineer | Gigsasa Ltd

Jan 2023 – Jun 2023

Nairobi, Kenya

- Provided technical support to end-users — diagnosing and resolving hardware, software, and network issues.
- Installed, configured, and maintained workstations, peripherals, software applications, and network infrastructure.
- Managed user accounts and access permissions in Active Directory.
- Maintained accurate records of support requests, solutions, and system configurations.

IT Support | TheJitu.com

Aug 2022 – Dec 2022

Nyeri, Kenya

- Collaborated with the software testing team to identify bugs and vulnerabilities prior to client delivery.
- Delivered end-user training on IT resources, software, and hardware.
- Provided remote support using desktop tools in distributed work environments.

COMMUNITY & VOLUNTEERING

Developer Advocate | Lux Tech Academy

May 2021 – Present

Nairobi, Kenya

- Help developers learn tools and technologies at Lux DevHQ; mentor front-end students.

Campus Ambassador & Cybersecurity Analyst | She Hacks KE

Apr 2021 – Feb 2023

Nairobi, Kenya

- Organized campus cybersecurity programmes and tested products pre-production for security vulnerabilities.

Mobile Web Specialist Mentor | Andela Community

2021

- Mentored web-track students and served as a panel judge during project reviews.

EDUCATION

BSc. Information Technology | Kibabii University

2018 – 2023

GPA: 3.4

CERTIFICATIONS & LEARNING

- Quickbase Professional Builder — Certified
- Data Engineering with Python — In Progress
- Ruby Programming for Backend — In Progress
- Microsoft Azure / Cloud Computing — Microsoft 365 Student Trainee (2021–2022)

PUBLICATIONS & SPEAKING

- Author: 'Beyond Data Risk' — published technical article
- Conference speaker on Angular, Next.js, Server Components, and API Security
- Technical writer covering software engineering and developer tooling
